

Ofcom Update: Electronic Communications Code

13th April 2007

Ofcom today issued a Direction applying the Electronic Communications Code ('the Code') to Telewest Communications Group Limited.

The Code enables network providers to construct infrastructure on public land (streets), and to take rights over private land, either with the agreement with the landowner or applying to the County Court. It also conveys certain immunities from the Town and Country Planning legislation in the form of Permitted Development.

Direction under Section 106(3) of the Communications Act 2003 applying the electronic communications code in the case of Telewest Communications Group Limited.
